Education

Kwame Nkrumah University of Science and Technology

B.Sc., Telecommunications Engineering

Kumasi, Ashanti

Jan 2025 — Present

Kumasi Senior High Technical School

General Science

Patasi, Ashanti

Mar 2020 — Aug 2023

Experience

Adobe Photoshop Editor

Personal, Profit-Oriented

Nov 2025 — Present

- Achieved professional proficiency in Adobe Photoshop within 2 months, reducing image-edit turnaround time by ~60% and enabling delivery of high-quality edits by self-directed study of advanced techniques on YouTube and TikTok
- Implemented a WhatsApp-based marketing program that increased customer inquiries by 40% and generated ~120 qualified leads per month by creating targeted advertising posts and segmented broadcast lists
- Generated \$200 in supplemental revenue, covering 100% of business laptop repair and maintenance costs, by monetizing ancillary services provided to clients

Coding Organization

CortexxAI

Mar 2026 — Present

- Architecting Machine Learning models using Python, Java, and C++ to automate predictive data analysis.
- Engineered full-stack responsive web applications, optimizing RESTful APIs for improved backend throughput.
- Performs comprehensive debugging and system optimization for legacy code bases to ensure high availability.

Skills

Programming Languages: Java, Python, C/C++

Developer Tools: Git, VSCode, Visual Studio, PyCharm
